Job Type:	Part-Time, Hourly Pay

At Solvus Global, We Are...

Innovators, Engineers, Entrepreneurs, Makers, Creators, Dreamers, DOERS

Solvus Global is a technology innovation company focused on solving problems in the materials and manufacturing space. We are a diverse team of engineers & scientists dedicated to leveraging our Knowledge Capital to develop critical solutions for our customers. Often, those solutions have much greater impact than just one organization and so we focus our innovations on Targeted Commercialization. Our team spins out core technology areas into standalone startups ready to build a team, raise capital, and launch a product/service that solves a critical challenge across entire market sectors in the materials & manufacturing space.

The Opportunity with Solvus Global Is...

Dynamic, Engaging, Cross-Disciplinary, Cutting-Edge, Flexible, EMPOWERING

This internship will provide exposure to the metal recycling industry, hands on experience with non-destructive characterization methods and a background in metal processing. You'll work on a multidisciplinary team of materials, software and automation engineers and build skills in test design, data management and analysis, and report writing. This position is well suited for first-or second-year engineering students looking to get early experience or any engineering level looking to focus on sustainability-centered innovation.

Required Attributes & Skills

- Pursuing a degree in an engineering discipline
- Ability to take & give direction
- Technical mechanical or material experience
- Data entry and handling as well as report writing
- Desire to develop new skills on the job
- Excellent communication skills

Advantageous Attributes & Skills

- Experience in a laboratory setting
- Experience with non-destructive evaluation techniques
- Desire to work in a team-based environment

Other Requirements & Position Details

- This is an in-person position at our Leominster, MA facility - you must be able to provide your own transportation
- Must be able to work a consistent schedule each week until the end of the program - exact number of hours and schedule can be discussed further
